THE MARINE VETERINARY COLLEGE PROSPECTUS.

As there appears to be a belief that intending candidates for employment in Government service are in many cases not aware of the existence of the Marine Veterinary College and of the prospects offered by a veterinary career, the following prospectus of the college is published for general information. The rules of the college and the scale of the Principal and Senior Scale Veterinary Service are laid to rest should be read previous to any time.

2. The College affords theoretical and practical instruction in subjects appertaining to the veterinary profession with the object of training men for service under Government, Municipalities, Local Boards or private employers. The staff of the college consists of a Principal, an Assistant Principal, three lecturers and a subordinate establishment. The responsibility for the discipline and management of the college is vested in the Principal who is subject to the control of the Board of Revenue. Full clerical and other facilities are afforded to meet the educational requirements of students preparing for the diploma in Veterinary Science. A Veterinary Hospital, Museum, Library, shooting range and students' hostel are attached to the college.

3. Candidates are eligible for admission without distinction of caste or nationality. They must not be under 18 years of age at the commencement of the term for which admission to the college is desired. A good colloquial knowledge of English is essential. Students are admitted to the College by selection which will be made by the Principal. Applications for admission should be made in writing in the prescribed form, copies of which may be obtained from the Principal's office and they should be submitted to or sent to the Principal not later than the 31st December of each year and should be accompanied by the following certificates:—

- (a) of age;
- (b) of physical fitness and moral character;
- (c) that the applicant has passed the Baccalaureat examination of an Indian University, except in the case of Europeans and Eurasians, who may be exempted, though engaged, at the discretion of the Principal.

4. In the event of a candidate being selected, he will be served with a special notice informing him of the particular day and hour when, and the place at which, he should appear himself for personal selection. Candidates whose admission will be considered to be on probation for the first two months of the course and may be removed if found to be not satisfactory.

COURSE OF STUDY AND EXAMINATIONS OF INSPECTION.

5. The course of study for the diploma exclusively extends over three years. The students of each year's course form a separate class. The number of students in each class is carefully limited to twenty. Provision is made for one class to another in order to enable the course to be completed. A student who fails in the class examination for two consecutive years is liable to be removed from the college.

The curriculum of instruction is as follows:—

- (i) *First year.*
 - (1) Anatomy (up to Arthrology).
 - (2) Elementary Chemistry.

Students who hold the diploma in agriculture are not required to attend the first year's course of study, but are admitted to the subjects of both the first and second year courses at the end of their first year of attendance at the Veterinary College.

All students are required to undergo a course of equitation and gymnastics. A student desirous of himself without leave from a lecture or from a practical, gymnastic or riding class is liable to be fined.

TUITION FEE AND RETURN.

5. Tuition will be free but a fee of Rs. 2 per term is payable by each student to meet the cost of sports. Government scholarship also win scholarships annually, each of the ordinary terms of Rs. 10 in each class, but reserves the right to decrease the number or alter their value if necessary. Scholarship in the last year will be awarded by the Principal on the results of a competitive examination held by him to which only passed men will be admitted. Scholarships tenable in the higher classes are ordinarily a test of the results of the annual examinations. A student already in the enjoyment of a scholarship from a local body or a private person must decline to compete for a Government scholarship. All scholarships are conditional on the good behaviour of the holders. Students who are in the enjoyment of the Government scholarships are required to refund the amounts which they have received if they leave the college without sanction or are expelled for misconduct.

6. In recognition of the free tuition given at the College, graduates will be required to execute an agreement binding themselves to work Government in the Civil Veterinary Department for at least five years if their services are required so long; and to refund to Government the total cost of their Veterinary education in the case they are desirous to seek Government as required.

TERM AND TERM-FEES.

7. Each term comprises two terms—a spring session from January to March and an autumn session from July to December. Tables of the times and subjects of lectures to which both teachers and students should adhere will be posted on the notice board at the commencement of each term.

VACATIONS AND HOLIDAYS.

8. (i) In addition to the miscellaneous public holidays, the students are allowed the following vacations and holidays—

- Midsummer vacation (two months)
- Midwinter holidays (one week)
- Christmas and Easter holidays (dormed).

Students are required to attend hospital cases in term during vacations.

(2) Leave of absence is granted by the Principal only. Retaining holders may, at the discretion of the Principal, be granted casual leave, with allowances for absence less five days of a fine or ten days in the year, but no casual leave will be granted in recognition of other holidays with allowances. Any further leave to scholarship holders except sick leave for a month, will be subject to stoppage of scholarship. Leave of absence in each case of illness will be recognized only on the production of a certificate from a duly qualified medical practitioner.

EXAMINATIONS.

9. Examinations are conducted orally and are held annually in December in all the classes. For admission to the examination candidates must have studied at the college for such time as may be prescribed and have attended at least three-fourths of the year's lectures and have done practical work in their respective classes.

DEGREES AND CERTIFICATES.

Each of the students on one clinical division works and performs their duties separately and, in addition, awarded in special certificates on passing the final examination.
